ADVANCE PRICE-LIST OF EVERGREENS AND DECIDUOUS TREES  
FOR FORESTRY PLANTING - SPRING 1919 DELIVERY.

There is an increased recognition of the great importance of forestry, and an increasing interest in timber planting. This is proven by Government statistics and by the steadily increasing demand for lumber.

Here are our annual wholesale prices on forestry material. Make your reservations now for delivery the coming Spring. All sizes are now complete and we have made especially attractive prices to induce early orders. We will gladly send samples of any of these items on request.

Where is our future supply of lumber to come from if we don't replace the rapidly diminishing forests of today? Lumber has never been used in such quantities as now. Trees that have been years in the making are cut down with a few strokes of the ax. These must all be replaced in order to supply future generations. Plant trees now and profit by your foresight. Rough or rocky land that is unsuitable for other crops will raise trees, bring in additional revenue, and take care of future needs.

Very truly yours,

THE D. HILL NURSERY CO.,  
Dundee, Ill.
